

We aim to provide a quality service for frail aged and young disabled people and their carers.

If we can be of any help to you or to someone you know, our HACC team will only be too happy to visit you.

Please call our HACC Co-ordinator or any of our team on:

# HACC Services and Aims

The HACC programme provides culturally appropriate services to Nyungars in the South West.

HACC services aim to provide a better quality of life for frail aged and young disabled Nyungars and their careers by providing practical assistance and support in their own homes.

These services provide trained HACC workers to:

- Assist with housework
- Transport
- Assist with respite care
- Meals on wheels can be organized on approval from your Doctor
- Transport can be arranged to take you to doctors, dentists and other medical appointments
- HACC staff can help you with shopping and paying bills
- They can be someone to have a yarn with or go on an outing with
- Provide social support through many of our weekly activities
- They can also help you with filling in forms and with any other support you may require
- They will always find help and support for you. If they can't do it they will seek support from someone who can
- Can arrange a social outing for you, your family and friends
- Can arrange special equipment to assist you on a short or long term basis:
  - Walking sticks
  - Wheel chairs
  - Shower chairs
- Arrange to have safety rails in your bathroom and toilet

The HACC Service and Team can also involve you with other SWAMS Programs:

- Women's Health Day
- Men's Health Day
  - Heart health
  - Diabetes Days
